

## Success Plan at a Glance

**High Impact Instruction: Teachers will implement rigorous, standards-based, STEM-infused learning activities into their Authentic Learning Units (ALUs).**

Goal  
**1**

- Teachers deliver lessons that are aligned to the rigor of the standards, including STEM-infused learning activities (including hands on learning, problem-based learning, and using the design process).
- Teachers will incorporate the Cyclone Innovation STEM Lab to help their students enhance their STEM learning through project-based learning.
- Teachers will reflect on their practices based on walk-through feedback (Peer, IPG, and Admin).
- Teachers through their Professional Learning Communities will reflect on their instructional strategies.

Excellence in Student Achievement

**Collaborative Culture: Students and staff will increase in their engagement levels through a variety of collaborative structures.**

Goal  
**2**

- Teachers will engage students in purposeful classroom collaboration activities.
- PLCs will meet regularly to improve their practice using the district's PLC cycle.
- Students will have opportunities to participate in multiple school activities such as: clubs, sport events, on track activities, field trips, stem days, school dances.
- Staff will be provided with increased activities to provide input into school decision making processes.
- Students will participate in a revised positive behavior support system.

Excellence in Student Achievement and Employee Success

**Data Driven Decisions: During the 2018-19 school year students will show increased student achievement through their academic performance.**

Goal  
**3**

- PLCs will monitor student achievement through Common Formative Assessments and other assessments; and will make changes to their instruction as needed for students' success.
- Teachers will create and implement targeted intervention activities for students as needed based on assessment data.
- Teachers will create and implement targeted enrichment activities for students.
- SIT will monitor Tier III students and will implement procedures to assist these students with success.
- SLT will monitor Tier I and Tier II systems to ensure that they are meeting the needs of ALL students.
