Since July 2014, the district has been working with TransPro consultants to develop a Success Plan to guide our work. The district will follow its plan in the coming years to align schools and constituencies around the work that matters most in the delivery of educational excellence and taxpayer value.

The plan was developed around four overarching strategies:

1. Excellence in student achievement
2. Employee success
3. Taxpayer value
4. Connecting to the community

Come out to hear about the draft framework — and provide us with your feedback and comments to make our Success Plan even stronger for our community. The plan is geared toward pursuing our mission of providing a world class education for all students so that we can realize our vision that all of our students achieve success in college, career, and life.
